**CANDIDATE BRIEFING  
PACK**

## About NomuPay

**Founded:** 2021

**Employees:** 250

**Investors:** Softbank, Finch Capital, Endeit Capital

## Company Profile:

Nomupay is a company that provides unified payment solutions aimed at helping clients accelerate growth in high-growth regions such as Southeast Asia, Europe, and Turkey. Their platform, known as the uP Platform, enables local payment acceptance and payout disbursements through a single system integration. They offer configurable payment solutions that adapt to unique use cases, helping businesses expand their merchant and consumer base while future-proofing operations against fragmentation.

## Competitors:

- **Adyen:** A global payment company offering a platform that connects merchants directly to Visa, Mastercard, and other payment methods.
- **Stripe:** Provides economic infrastructure for the internet, offering payment processing software and application programming interfaces.
- **PayPal:** A well-known online payment system that supports online money transfers and serves as an electronic alternative to traditional paper methods.

## Key Events:

- **NomuPay acquires Total Processing:** NomuPay has acquired Manchester-based merchant services and payment processing solution provider, Total Processing.

- **Solving payment fragmentation in Southeast Asia:** Nomupay's unified payment platform makes it easy for businesses to capitalise on rapid e-commerce growth in regions such as Southeast Asia and Turkey.
- **NomuPay's partnership with Alberen Elektronik:** NomuPay partners with Alberen Elektronik to deliver a bespoke payment solution.
- **NomuPay's acquisition of Wirecard entities:** NomuPay finalises the purchase of Wirecard entities in Malaysia and Hong Kong.

### **NomuPay's goals include:**

- Providing companies with an "all-access pass" to global payments
- Enabling companies to continue to expand globally
- Future-proofing payment strategies
- Innovating tech faster
- Expanding into new markets
- Bringing greater value to merchants

### **Key Board Members:**

- Peter Burrige - Group Chief Executive Officer
- Sam Ellis - Group Chief Financial Officer
- Rob Palin - Chief Operating Officer

### NomuPay Customers

### About KlickEx Pacific:

KlickEx is an Auckland-based fintech founded in the late 2000s. It operates a peer-to-peer foreign exchange platform that enables low-value, cross-border currency transfers, especially between New Zealand and Australia and the Pacific Island nations like Tonga and Samoa. Since 2009, it has grown its retail remittance operations under the KlickEx Pacific brand, offering fast, secure money transfers and mobile top-ups for (often underbanked) Pacific Island communities through partnerships with local mobile providers.

The platform focuses on affordability, speed, and accessibility. Transfers can be completed within minutes, with lower fees and exchange margins than traditional banking alternatives. KlickEx has built an extensive network that includes partners like Digicel, Vodafone, GCASH, ShopeePay, MoMo, and

SPBD, serving regions such as Fiji, Samoa, Vanuatu, PNG, the Cook Islands, the Philippines, Vietnam, Indonesia, Malaysia, and Thailand. It also supports in-person transactions in New Zealand through a network of local agents, including dairies, internet cafés, and petrol stations.

KlickEx is widely recognised for its impact on financial inclusion in the Pacific. It has won several innovations and fintech awards and is known for its efforts in delivering banking services to underserved communities.

In 2022, KlickEx was acquired by NomuPay and has since partnered with TerraPay to expand its services beyond the Pacific. Today, it serves tens of thousands of customers monthly, providing both consumer remittances and backend infrastructure for banks, mobile networks, and even central banks in emerging markets.

**Role Title:** Senior Developer / Full Stack Developer —KlickEx

**Company:** NomuPay Group, KlickEx Subsidiary

**Location:** Remote

**Key Relationships:** KlickEx CEO, Group CTO, Head of Development  
(Melbourne)

**Department:** Technical Dept.

## **Role Summary:**

KlickEx Pacific Limited is seeking a highly skilled and experienced Senior Developer / Full Stack Developer to join our fully remote team. You'll play a critical role in designing, developing, and maintaining robust, scalable software across our .NET-based platform—modernising legacy systems, building new features, and contributing to DevOps practices.

This position requires strong backend and full-stack development expertise, with a focus on **C# and Microsoft technologies**. Ideal candidates will have experience across both front-end and back-end development, as well as a solid understanding of database optimisation, system architecture, and modern development workflows.

You will help shape new features, refactor legacy code, write reliable unit tests, and ensure high-quality software delivery in a fast-paced, collaborative environment.

Job Title: Senior Developer / Full Stack Developer

Location: Remote

Reports To: Head of Development / CTO

## **Key Responsibilities:**

- Develop and maintain ASP.NET Web Forms, MVC, and .NET Core applications
- Build and manage APIs and RESTful web services
- Optimise SQL queries and relational database performance
- Participate in code reviews, testing (unit testing, TDD), and DevOps practices
- Work with Windows servers and contribute to our CI/CD pipelines
- Help refactor legacy code and drive modernisation efforts
- Collaborate remotely with cross-functional teams

**Required Skills and Experience:**

- 5+ years of .NET/C# development experience
- Solid experience with ASP.NET Web Forms, MVC, and .NET Core
- Strong SQL/database skills and RESTful API development
- Comfortable with version control, CI/CD pipelines, and remote collaboration
- Experience with cloud platforms (Azure, AWS, or GCP) is a plus
- Payments or fintech experience is a bonus but not required
- Frontend experience (e.g., JavaScript, Next.js) is nice to have

**Education:**

- A bachelor's degree or higher in Computer Science, Engineering, or Mathematics is desirable.
- Relevant professional experience will be considered instead of a degree.

**Personal Attributes:**

- Proactive and self-driven
- Strong problem-solving skills
- Comfortable working independently in a remote setting
- Curious and open to learning new tools/technologies

**To Apply:**

Interested candidates are invited to submit their resume and a cover letter outlining their relevant experience and why they are a good fit for this role to:

<https://forms.gle/FY8pXtTp8Zp9eMEMA>

**Why NomuPay and Klickex?**

- Opportunity to work on impactful projects in the exciting and rapidly evolving fintech industry.
- Be part of a collaborative and supportive fully remote team.
- Contribute to a company that is making a real difference in cross-border payments.
- Competitive salary and benefits package.

- Opportunities for professional development and career growth.
